World War Two Veterans Mingle With School Boy Recruits As Camp Opens

INDIANTOWN GAP, Pa., Aug. 9.—Approximately 6,000 Pennsylvania National Guard troops swept into the Indiantown Gap military reservation today for their first peacetime encampment in seven years.

Battle-wise veterans of World War II mingled with school boy recruits on the 15,600-acre, mountain fringed bivouac area in Lebanon county where they will undergo two weeks of intense instruction.

Arrival of the khaki-clad guardsmen stirred new life into the huge camp that had been the training grounds for several of the better known Army outfits sent overseas. They included Pennsylvania's own 28th Division, the famed Third Armored Division and the 77th and 95th divisions.

The last time the PNG trained on a peacetime footing was 1940; in February, 1941, units were gearing for war.

The encampment will be commanded by Brig. Gen. Charles C. Curtis, of Allentown, head of the 51st Anti-Aircraft Brigade and senior guard officer. The assignment fell to him as a result of the resignation of Maj. Gen. Edward J. Stackpole as overall PNG commander July 15.

Curtis will continue to head up the anti-aircraft brigade and ordnance maneuvers planned for the 28th Infantry Division, 11th In-

Pa Newc Observes

An Edison avenue resident told Pa Newc this morning, that she has a strange place at her home that takes place at least two and three times each summer. The back porch of the home is completely enclosed with the exception of a small three inch opening at the bottom too small for an animal to get in. Last night, a green syrup fluid, covered the porch and screen on the inside and the North Hill woman is unable to discover the source of the annoyance. The same thing has occurred a number of times previously.

Carpenters, painters, and decorators are in the midst of extensive remodeling of the coral room at The Castleton.

Some mighty luscious blackberries are coming into market now—just at present they are in their prime and a number of housewives are putting up a bit of blackberry jelly.

Many churches about the city and county will have visiting pastors in the pulpits again Sunday. Many of the ministers are visiting in other communities during their annual vacation period.

Unpaved rural roads of the county are showing the effect of the lack of rain. Vegetation on either side of the roads is well coated with dust. Many gardens could use a several-hour rain.

Traffic arrow placed by the highway department in the 400 block of East Washington street, near County Line street, has been a big aid to motorists using route 422. Previously, many out of town travelers became confused at the intersection and mistakenly went up County Line street.

Airline Officers Call Off Strike

NEW YORK, Aug. 9.—(INS)—A threatened strike of 150 radio flight officers of the American Overseas Airlines was called off at 2:30 a. m. today pending further negotiations.

The AFL Flight Communications Officers association agreed to resume discussions with company officials. Hope is held by both sides that a settlement will be effected later today.

The strike followed protests by the radio men against a company ruling that only one operator be used on each transatlantic flight. Instead of two, as was the practice formerly.

Tells Legionnaires Communism And Bigotry Are Twin Evils In America

PITTSBURGH, Aug. 9.—(INS)—U. S. Senator Edward Martin today told the Pennsylvania department of the American Legion that the United States today faces two extremes in un-Americanism—communism and bigotry.

The former governor of Pennsylvania, speaking before more than 7,500 delegates to the 29th annual state convention, said:

"These are critical times. Our nation faces communism and bigotry. It fights to maintain its balance and to walk the middle of the world's highway."

"We face a jealous world. Even those we help are suspicious and envious of our success. Many of our own people have forgotten the hard road travelled by our fathers that we might enjoy free institutions, and American liberties."

His talk came just before the assembled Legionnaires settled down to the serious business of electing a state commander.

Martin warned that U. S. "hate mongers" are seeking to direct

Stoppage Of U. S. Film Shipments To Hurt Britain

LONDON, Aug. 9.—(INS)—British motion picture executives voiced fears today of a general closing of theaters because of the American decision to halt immediately shipments of films to Britain.

The embargo was ordered by the New York Motion Picture Export Association at a meeting in New York because of the newly announced 75 per cent customs duty imposed on films entering Britain.

Wam R. Fuller, general secretary of the British Cinema Exhibitors Association, said:

"We have enough films to carry on for six months, but the British studios are not likely to turn out enough to fill the gap and the public soon would tire of revivals."

France Opposed To Plan Of Raising German Industrial Level—Coal On Agenda

By JOHN A. REICHMANN
(N. S. Staff Correspondent)

WASHINGTON, Aug. 9.—The Marshall plan for European reconstruction is expected to face its first serious crisis in the next week as British and American experts gather in Washington to discuss the problem of raising coal production in the Ruhr.

The initiation of the coal talks on Tuesday was assured Friday night when the state department announced the names of delegates and experts who will conduct the conferences.

While strictly confined on the surface, to the Ruhr coal problem, observers feel that there will be an effort made by the British to include related matters. This feeling has been aided by the fact that the state department has declined to announce the agenda of the talks.

Earlier the British sought to include the level of industry in Germany, readjustment of the costs of maintaining the combined Anglo-American zones, and other matters.

For this reason, France and some

Army Hunts Gems Of Late Princess

Half Million Dollars Worth Of Jewels Supposedly Stolen From Truck

BERLIN, Aug. 9.—(INS)—U. S. military government investigators concluded a fruitless search today for half a million dollars in jewels formerly belonging to the late Princess Hermine, who died at Frankfurt-on-the-Oder Thursday.

The gems, for centuries the property of Hermine and her family, Von Schoenaich-Karolath, allegedly were stolen from a truck somewhere in the United States sector of Berlin.

News of the theft came to light soon after the death of Hermine, who was the second wife of the late Kaiser Wilhelm II.

Search was carried out in cooperation with Hermine's son Prince Ferdinand, formerly employed as an automobile driver by British military authorities and now a jobless resident of the American zone. Military officials filed a report on their fruitless search with the "higher headquarters," which will decide whether further efforts are to be made or the matter placed in the hands of German police. The report shows that no Americans were involved in the alleged theft.

Car Men Threaten Cleveland Strike

Employees Protest Use Of One Man Cars—Threaten To Strike If Used

CLEVELAND, Aug. 9.—(INS)—A strike threatened Cleveland's vast transportation system today as employees protested against plans for one-man streetcar operations on the Kinsman Road line.

A mass meeting of the City Transit System Employees' Union has been called for Tuesday night by the union president, Thomas P. Meaney.

"If it becomes necessary to take a walk to protect the rights of our people, we'll take a walk," Meaney threatened following a meeting of union and transit system officials with David R. Hertz, transit umpire.

Progressive conversion to one-man operation is planned by the city-owned transit system, which has been going into the "red" financially for the past seven months.

The union has offered to go along with partial conversion to busses on the Kinsman line and also has demanded that employees thrown out of work by the conversion be permitted to go on pension even though they have not completed 30 years of service.

A state law enacted at the last session of the Ohio legislature prohibits strikes by public employees, but the law has not yet gone into effect.

Wife Of Arkansas Prosecutor In Seclusion After Shooting Father-In-Law

HOT SPRINGS, Ark., Aug. 9.—(INS)—The pretty wife of Arkansas' 35-year-old racket-busting prosecutor, Sidney S. McMath, was reported in seclusion today awaiting a grand jury investigation into the shooting of her father-in-law Hal S. McMath, of Hot Springs.

Young McMath, who was acting as spokesman for his wife, Anne, 25, said she was remaining at their suburban Cedar Mountain Ark., home under the care of a physician.

The former Marine Corps hero yesterday asked Circuit Judge prosecutor to appoint a special prosecutor to handle his wife's case, after stating she had shot and killed his father, a retired farmer and barber Thursday night.

The judge, a former law partner of McMath, announced that he would call the Garland County Grand Jury into special session Thursday. However, he did not immediately announce his selection of the special prosecutor.

The statement issued by McMath said that Mrs. McMath shot her father-in-law when the latter, in a drunken frenzy, attempted to attack her in the McMath home Thursday night.

McMath claimed the shooting took place after his father, "an excessively heavy drinker," followed Mrs. McMath into the house during an argument about abusing a horse. The statement said:

"She picked up my .45 automatic, which I kept in my desk, with the idea of frightening him away."

Lands At Calcutta Hops For Shanghai

Capt. Bill Odom Still Ahead Of Schedule On His World Girdling Trip

CHICAGO, Aug. 9.—(INS)—Franklin Lamb, flight manager for Capt. Bill Odom, said he had received a telephone call from Shanghai advising him that the "Reynolds Bombshell" had passed over the Chinese City enroute to Tokyo.

The call was timed at 10:22 a. m. (CDT).

Lamb said apparently Odom was going on to Tokyo without making the scheduled Shanghai stop of his round-the-world flight.

Capt. Odom had left Calcutta after announcing "either Shanghai or Tokyo as my next stop."

CALCUTTA, Aug. 9.—(INS)—Capt. Bill Odom arrived at Calcutta's Dum Dum airport today on his solo flight for a round-the-world record and took off again hoping to land at Shanghai or Tokyo.

Odom brought the silver converted bomber down to earth at Calcutta at 2:05 a. m. EDT in a jump from Karachi, India.

He took off again on the sixth leg of the sleepless flight at 3:43 a. m.

May Make Tokyo

Odom said he hoped to reach Shanghai at 10:30 a. m. EDT but added that if conditions are favorable he would continue on to Tokyo without halting at the Chinese city.

The 27-year-old airman completed 9,340 miles of his 19,600-mile tour by reaching Calcutta. His total elapsed time was 40 hours and 52 minutes.

Odom, who took off from Chicago Thursday afternoon, is shooting for the solo record set by the late Wiley Post.

She was an infant of one in England when the Mexican War opened. She was a young girl of 14, only two years in America when the Civil War opened.

And yesterday, August 8, Mrs. Mary Ann Marks celebrated her 100th birthday in the Almira Home where she has been a resident for the past ten years.

While her hearing is not as sharp as it once was, Mrs. Marks is fairly good health considering her age. She sat for her photograph and

seemed to enjoy the experience. All during the day she received congratulations upon her unusual anniversary, but because of her advanced age there was no party.

Mrs. Marks was born in Birmingham, England, one of eight children born to Mr. and Mrs. Charles Challinor. At the age of 12 she was brought to America, a boat trip that was nothing like the luxury liners of today.

Nationalization Plan For Steel Splits Cabinet

Ernest Bevin Favors Postponement Of Change-over During Economic Crisis

LEFTIST MEMBERS PUSH FOR CHANGE

Regardless Of Final Decision Resignations From Cabinet Seem Inevitable

By CHARLES A. SMITH
(N. S. Staff Correspondent)

LONDON, Aug. 9.—Informed political sources reported today that the British labor cabinet is split sharply over plans for the nationalization of the iron and steel industry.

According to these sources, no matter what decision the labor chiefs make there will be major changes in the government.

Aneurin Bevan Threatens

Minister of Health Aneurin Bevan reportedly is threatening to resign if the laborite platform for nationalization of the basic industry is not carried out.

Lined up in favor of postponing the changeover while Britain is struggling against an economic crisis are said to be Foreign Minister Bevin, Chancellor of the Exchequer Hugh Dalton and Herbert Morrison, Lord President of the Council.

Informants said that if the cabinet does decide on going ahead with the nationalization plan in the face of warnings that the changeover will mean a drop in production, Sir John Wilmot will quit as minister of supply in favor of Bevan.

A cabinet subcommittee is meeting this weekend to discuss a decision now the dominating issue in labor party ranks.

It will be threshed out further at a parliamentary laborite conference Monday necessitated by demands of some 100 leftist M. P.'s for unrelenting efforts for enactment of the party's socialist program.

The laborite bill for emergency powers to deal by decree with the economic crisis was approved yesterday by the House of Commons by a 251 to 148 vote.

The bill, assailed by Winston Churchill as "a blank check for a totalitarian government," now goes to committee and the House of Lords.

Political informants predict that it will be adopted by next Wednesday when parliament is scheduled to recess.

Truckers Facing Suit In Violation Of New Labor Law

CINCINNATI, Aug. 9.—(INS)—The International Truck Drivers, Chauffeurs and Helpers Union (AFL) local 100 today faced a \$100,000 Cincinnati Federal Court damage suit for alleged boycotting in violation of the Taft-Hartley Labor law.

The suit filed yesterday by Moskowitz Brothers, a scrap metal firm, contends the union local damaged company business during a strike called July 28 to gain bargaining rights by "inducing and encouraging" other firms and persons to cease handling its products.

The company also charged that the union employed "thugs and intimidation" and used unauthorized pickets to reduce the firm's business. Common Pleas Court Judge Alfred Meek last week issued a temporary injunction limiting pickets to two.

Named as defendants with the union are Otto H. Frobe, secretary-treasurer; Walter Schultz, local business agent, and John W. Mende, international business agent.

State's Evidence About Completed

Prosecutor Ready To Close His Case Against California Heiress

SANTA ANA, Cal., Aug. 9.—(INS)—Prosecutor Eugene D. Williams said today that he would rest the state's case late Tuesday against George "Bud" Gollum, 21, and Beulah Louise Overell, 18, accused of the yacht blast murder of her wealthy parents.

The California assistant attorney-general said:

"I hope to complete presentation of the state's case late Tuesday."

It was disclosed at the same time that Gollum's mother, Mrs. Wilhelmina Gollum Stomel, and his sister, Miss Wilfred Gollum, have been subpoenaed as prosecution witnesses.

Their appearance next week will follow testimony for the state by two uncles of Louise, Fred Jungquist, guardian of the 18-year-old heiress, and Emanuel Jungquist, guardian of her estate.

Both have testified that Bud and Louise were "singularly unresponsive" following the deaths of Mr. and Mrs. Walter E. Overell.

The state has charged that Gollum and the girl bludgeoned the Overells to death aboard their yacht in Newport harbor last March 15 and then sank the craft with a dynamite time-bomb.

of the other major powers in Europe are expected to follow reports on the Ruhr talks closely.

Apprehension Voiced

Apprehension of the possible outcome of the talks has been voiced repeatedly by the French. The French government has made clear that it is inalterably opposed to raising the German industrial level and an earnest effort was being made over the week-end to allay Paris fears that something on the subject would be done without consultation.

State department officials have been working frenziedly on the subject. It is regarded as certain that some steps to appease the French will be taken before the Washington talks begin.

This may be in the form of a public statement or in some announcement of plans whereby the French views will be received in a formal conference. Reports have indicated that French Foreign Minister Georges Bidault will come to the United States to discuss the matter personally.

Former Minister Tells Of British Assault On Ship

NEW YORK, Aug. 9.—(INS)—John Stanley Grauel, former Meth- odist minister, said today the British, without provocation, spray- ing tear gas and then clubbed and shot Jewish refugees on the freighter "Exodus 1947," off Pale- stine, killing several and injuring 147.

anger against Russian tactics "into channels of bigotry and intoler- ance."

He declared:

"What I am afraid of is this: that good Americans—outraged by the Red attempt to expand its fifth column in the United States—may fall victim to the vicious preaching of the bigoted, fascist extremists of the right."

Urging the Legion to maintain a program of education in American constitutional ideals, the Pennsylv- ania senator condemned the Ku Klux Klan and "other 200 and 300 per cent Americans who would re- write the Declaration of Indepen- dence."

Martin remarked:

"Communism is a vicious doc- trine. In escaping it, I do not want our country to fall victim to another vicious doctrine—the belief that men are inferior unless they are of a certain creed and color."

In propounding his program for education, Martin asserted that the fight against communism must not result in "amateur vigilantes" or in "fiery crosses burned in our fields by hooded men."

RUSSIA DOESN'T LIKE IT

Russia and the United States are at odds again—this time over the way the Japanese peace treaty is to be written. The United States wants an 11-power conference, with no veto, and decisions made by two-thirds vote. Under such a set-up it would be impossible for Russia to stall a settlement in Asia as she is still doing in Europe.

The Russians want the same set-up as existed for the European treaties. Although she was at war with Japan for only a few days, at a time when the atomic bomb had already been unleashed, she feels entitled to just as big a say as she had in Europe. And she might have been able to talk the United States into doing what she wants if her own actions in Europe had not warned Americans what would happen.

As things stand, there does not seem to be much she can do about the matter. The United Nations is not involved, since this is to be a treaty imposed by victors upon vanquished, in which the international organization may not intervene. Russia, moreover, has little to bargain with. She can't threaten, for instance, to gum up the works in Korea unless she has her way. There is already a deadlock of long standing there. Neither can Russia's offer to be more reasonable in Korea; her record of keeping promises is too poor to make Americans swallow that bait.

Unless she pulls a rabbit out of the hat, about all she can do is stain from the treaty conference. In that case, the United States will go ahead and draft the treaty without her.

That isn't the way Russia wants it. But she has turned her back on conciliation and compromise, and she has no one to blame but herself if that policy is now beginning to turn sour.

LABOR PEACE BUT AT A HIGH PRICE

Because a strike of the 108,000 Ford Motor Company workers would have been a body blow at American economy, everyone should rejoice that an agreement has finally been reached by the company and the union. But there can be no pride or satisfaction whatever in a compromise which has its basis and being in a concerted effort to evade the plain provisions of the new Taft-Hartley labor law.

That is precisely what the settlement does. It provides for the appointment of a committee to work out a program under which the union will not be held liable for actions which the law of the land declares are subject to prosecution and heavy penalties. While this inquiry is in progress—the time limit is one year—no responsibility shall attach to the union for any strikes or stoppages of work. The contract thus becomes a mere scrap of paper.

In making this arrangement the company and the union are saying in effect that they will pay no attention to one of the important clauses in a law which Congress passed by tremendous majorities and in response to the overwhelming sentiment of the people of the country. It is almost a case of saying: The public and Congress be damned.

HELP—WITH RESERVATIONS

Winston Churchill's offer to help the British government get another American loan would have carried more weight in this country if he had not been compelled at the same time to criticize so violently Great Britain's use of the present loan.

The statement, for instance, that the Labor government has "frittered away" on non-essentials a great part of the \$3,750,000,000 already borrowed from the United States is hardly calculated to make Americans want to dig down into their pockets again for a similar purpose. Almost as discouraging is his further declaration that since the nationalization of the coal industry, British miners "are producing less at a far heavier cost than when they were working for the private capitalist owner."

Feeling as he does about the Labor government, its "wild financial extravagance" and its "lying promises and bribes," Mr. Churchill could not well help qualifying his proposal to join in the campaign to obtain more financial assistance from the United States. So he will support this new appeal only in the event that Britain goes to work, makes the most of its resources and shows a determination to become a self-supporting nation and system at the earliest possible moment.

That reservation is likely to be made also by the majority of the members of Congress.

American converts do not judge a foreign ism by itself. They think of it as something added to all the blessings they now enjoy.

Those who maintain a woman dresses to please the man she loves fail to explain why it pleases him to have her look swell at a hen party.

The silent man may not be strong. Unable to talk nonsense, and considered a bore when he talks sense, all he can do is keep still.

Washington Calling

International Field Offers Air Possibilities

WASHINGTON, Aug. 9.—Howard Hughes looks younger than his 41 years. There's more than a touch of Texas in the way he speaks—the short, terse sentences, the twangy voice. Typecasting by Hollywood would put Gary Cooper or James Stewart in the part.

The contrast with the senators sitting on the other side of the table could hardly be sharper. For one thing, it's the contrast between youth and age. That is an important element of the drama which has hung the standing room only sign on the Senate's caucus room.

In the duel before the Senate Investigating committee, Hughes stands for new ideas, for experiment, adventure. He has repeatedly risked his life in backing his own ideas.

New Ideas Welcome

The aviation industry is one place where new ideas should be welcome. In twenty-five years it has grown up from nothing. Yet there seems to be a strong desire to scale it down to the restricted, monopoly pattern.

Not long ago, another young man appeared before a Senate committee with a new and bold idea. That was Lt. Com. Langdon P. Marvin Jr., who, out of his experience with the naval air transport service during the war and his researches since then, has become an authority on air cargo. Young Marvin talks about the "new sea" and its vast potentialities for freight.

Appearing as a private citizen before an aviation subcommittee, he testified that his estimates showed 3,000,000 pounds of air cargo could be carried on a profit-making basis across the Pacific each year. Marvin estimated that this would bring in \$2,600,000 in revenue for the airline, or airlines, carrying the cargo. He based this on a careful commodity-by-commodity study.

MAID-OF-HONOR HOLDS FLOWERS

Question: Should the maid-of-honor hand her flowers to one of the bridesmaids before the maid takes the bride's flowers during the ceremony?

Answer: No. The maid-of-honor holds her own flowers as well as those of the bride during the ring-placing in the ceremony. After the ceremony is over, the maid hands the bride's flowers back before the recessional starts.

Question: The best man does not walk in the wedding party in the processional. I know, but what of the recessional?

Answer: In a conventionally-conducted wedding, the best man leaves through a side door and meets the bride party outside of the church. In most weddings, however, he walks down the aisle with the maid-of-honor, which is permissible.

Question: Please give me an example of a thank-you note for gifts that I shall receive at my forthcoming wedding.

Answer: The following is a sample of the kind of note you might send: Dear Mrs. Smith: I am delighted with the beautiful candlesticks you and Mr. Smith sent to us. I can hardly wait to see them on my dining table.

Thank you so much for your thoughtfulness. When we are settled in our new home, you both must come to dinner and see for yourselves how lovely they look.

Question: Must every piece of china in an entire dinner set be of matching design?

Answer: Heretofore, sets of china had to be of matching design but present fashion is more lenient allowing place plates, salad and dessert plates and after dinner (demitasse) coffee cups to be of designs different from the other pieces of the set used with them. Of course, if you prefer, these may all be of the same design.

AGE AND YOUTH

God has existed for a long time but He is not old.
People grow old.
Young people get on the nerves of old people.

Old people get on the nerves of young people.

Moses says that God got tired of the way people acted and sent a big flood.

There needs to be a lot of tolerance between the old and young.

Old people sometimes are pretty bossy. They are likely to be "set in their ways." They may want to change their habits but it is a hard job.

Young people are pretty much "set in their ways" too. They are eating their peck of dirt. They should be allowed to make some mistakes.

The golden rule helps some but gold comes pretty high.

The Parent Problem

By Garry C. Myers, Ph. D.

THE CHILD WHO IS A FAVORITE

From the time when Jacob was mama's boy and Esau was father's favorite and Joseph was so much a pet of both parents as to make his brothers choose to sell him as a slave, favoritism by a parent, grandparent or other relative has prevailed in many a family. Human Nature is such, indeed, that it may not be psychologically possible to find a family of two or more children in which there is not a slight degree, at least, of favoritism even by one or both parents. While you would not admit it, the chances are, if the truth were known, your heartstrings are tied to a wee bit tighter to one of your children than the rest, in spite of your bravest efforts to be absolutely impartial.

But when favoritism by a parent or grandparent is so obvious as to be manifest to almost anyone, the partial relative deserves severe censure for such cruelty. I receive a great many letters of such partiality. Here is a sample:

Has Three Boys

"We have three boys—13, 9, 6. It is Grandma who is the guilty person. She lives in our town and comes to see us at least once a week. And the boys drop in to see her whenever they go down town, which is about once a week. The oldest boy has always been her favorite and she has money enough to buy him nice gifts, which would be just fine as we do not have much money and we like to see the boys happy, but she almost never gives him anything to the other boys. I have quite a time trying to convince them that Grandma loves them, too. They say: 'Then why doesn't she give us something, too?'"

"Besides the gift problem she seldom shows any love for the others but is quick to criticize and scold. She bought the oldest boy lovely bikes when he was six and eight. He outgrew his last bike and so I bought it from him and gave it to the 9-year-old and told the oldest boy to let the money to get the larger second-hand bike. But he decided to buy a model airplane instead and go without a bike. Well—Saturday he came from Grandma with a brand new bike she had bought him!"

Real Harm

"What I'm wondering about is this—will it do the boy any real harm to have Grandma show this favoritism? Will it make the oldest boy feel he is better than the others. (Continued on Page Seven)

Words Of Wisdom

A perverse temper, and a discontented, fretful disposition, wherever they prevail, render any state of life unhappy.—Cicero.

From Me To You

By MESEALL

This is truly the machine age... everyone wants something to do something but they want that something to have wheels and a motor. For a perfect example... lately we have been seeing a lot of bicycles... but are the customers pushing them with foot power... no indeed... they have small motors now to do the work... and the rider just sits there... travels at all this ease of riding a bicycle and the speed too, costs very little. One chap says he can't afford to leave his "bike" at home... can't even buy shoe leather as cheaply as he can maintain the "bike".

Some folks of course seem to have false economy... the cost of operation of an item might be low... and offset say the price of a shoe repair bill... but how about the initial cost? Sometimes that doesn't seem to enter the picture... but then again we say... some people have more fun than anybody.

And when it comes to travel... the motor... the gasoline motor surely has made a big difference in the way we can now live. Yesterday we got to pondering seriously over this part of life... when we were standing on the side of a large airport... It's possible... and done very frequently... by people who wish to travel from coast to coast... to fly in one day... in fact in less than twelve hours.

Kiss your husband goodbye... in California... hop a plane to Pittsburgh... buy a new hat... and be back home again in California before he gets home from work the next day.

Of course one must travel light... and if you can't get everything in the traveling case you must wear the item or items... Which caused all this to come to mind... for the passenger we met couldn't get all personal items in the "case"... so a dozen strands of beads coiled around her beautiful throat. Yes, siree... some people sure have fun... don't we?

Hints On Etiquette

Don't talk about your operation at the dining table. It is not considered to those who are present, who may be made ill from such talk.

The World and the Mud Puddles

THERE WILL ALWAYS BE AN ENGLAND

The English House of Commons is today very much a Socialistic Body. The last example of how Socialistic it is, is the passage of the Act nationalizing the railroads of England, Scotland and Wales.

Of course, the English government would not think of taking private property without paying for it, and the Act nationalizing the railroads provides for the payment to the stockholders of a billion pounds, corresponding to about four billion dollars in money of the United States. So the act provides for the payment by the government of Great Britain of this one billion pounds into the hands of the government. Naturally, the Socialistic idea is that there will be no profit made in the operation of the railroads. Any profit that has hidden in the "Royal Scoop" from London to Glasgow realizes how well has private capital built a railroad. The right-of-way is kept like a rich man's lawn. Every crossing is guarded and the train slips over this right-of-way almost noiselessly, with a speed maintained of 60 miles an hour for the entire distance. The English railroads have been magnificently cared for.

Turned To Thornton

It will be remembered that during World War No. 1 England turned to a man whom New Castle people knew very well; one who was at one time superintendent of the Erie Division of the Pennsylvania company's lines, with its offices on the West side—Henry Thornton. Mr. Thornton was taken from the Pennsylvania when he was operating the Long Island system out of the then New York City Station in New York, and railroad men knew how well he did that job.

Now the English Socialists plan to take over, but where will they get four billion dollars? They have spent all the money we have loaned them and I suppose they expect to borrow it from us, and probably will turn to us for some successful railroad men to work in the Railroad Bureau established by the House of Commons.

But these same Socialists do not permit their ideas to interfere with their loyalty to the Crown. The betrothal of Princess Elizabeth, heir-apparent to the throne, to Lieutenant Philip Mountbatten, her cousin, also of royal lineage, has aroused to a high pitch the enthusiasm of the masses. The citizens of London would resent any interference with the traditional ceremonies attached to the royal house. The "Yeomen of the Guard" at the Tower of London, are still dressed in their Tudor uniforms; the band of the Life Guards wears the uniform of Stuart days; the learned Judges of the Law Courts or the Inns of Court wear their bull-bottomed wigs and gowns of the late seventeenth century, while the learned counsel who plead before them are in the fashion of the eighteenth century. The green livery and the black top-hats of the bank messengers are only one of the many examples of the nineteenth century. A famous military (Continued on Page Seven)

Clear-Cut Issue At Last

WASHINGTON, Aug. 9.—The extraordinary ferocity with which the labor bosses are denouncing the Taft-Hartley law and the furious threats they are making not only to repeal the law but to drive out of public life its authors, sponsors and supporters, is going to make the clearest kind of clear-cut issue between the two major parties in the coming presidential campaign—which is good.

IT IS not often all the leaders of organized labor agree on any political question. But on this they are solid. The aged Mr. Green and the untutored Mr. Murray are no more positive than the truculent Mr. Whelan and the defiant Mr. Lewis that the act is evil, unconstitutional, economically unsound, poisonously designed not only to destroy the unions but to knock the props from under the republic, cause national industrial chaos and general distress. All of which is echoed and endorsed by the Daily Worker and the Communist party. And all of which, of course, is nonsense. Nevertheless, having gone to these silly and violent extremes before the bill was passed, the accumulated impetus was such that the opposing groups could not stop abruptly once the bill became law, but were compelled to proceed along the lines of their unrestrained propaganda for a "fight to the finish." This includes not only testing the law in the courts but forcing the issue in the election.

HAVING used in his veto message the arguments and almost the language of the CIO general counsel, Mr. Lee Pressman, making the same misstatements and exhibiting the same indifference to the facts, Mr. Truman is irretrievably committed to that side and is clearly the only candidate advocates of repeal can support in 1948. Even before the veto there was slight question of that; now there is none. Just as clearly there was slight question of that; now there is none. Just as clearly the AFL, CIO, all the professional "liberals" and all the radical groups, plus the Communists, are welded together in hostility to the Republicans, no matter what their name for President. For, even though the Democratic convention fails to pledge the party to repeal, the Democratic candidate, Mr. Truman, is personally bound to favor repeal. Although, as pointed out in a previous article, a majority of the Democrats in Congress cannot follow him in that without complete stultification, nothing else, after the attitude he took in his veto, makes sense for the President.

ON THE other hand, the Republicans in Congress voted for the bill with such complete unanimity that it is absolutely certain their convention will endorse and commend it, pledge the party to perfect and strengthen rather than modify or repeal. To do otherwise would be an unthinkable repudiation of the Republican record and make the Republicans in Congress supremely ridiculous. In addition, it would indict practically every Republican leader—Senator Taft and Representative Hartley, Speaker Martin and Majority Leader Halleck, Senators Vandenberg, Brickner, Lodge and Saltonstall, who voted to override the veto, and also ex-Gov. Harold Stassen, who publicly endorsed the bill.

IN BRIEF, every man who has any real chance of being nominated for President by the Republicans supported the Taft-Hartley bill and is already on the list of those to whose political extermination the labor bosses have now pledged their lives, fortunes and so-called honor. The one exception is Governor Dewey, who, perhaps, has a better chance than any other for the nomination. Some political analysts have tried to make a point in his favor that Governor Dewey has conspicuously avoided endorsing the law. But that is not a good point. In the first place, it is inconceivable that Governor Dewey, when the time comes, will fail to show sympathetic approval of an act so overwhelmingly supported by his party's representatives in House and Senate. To take a hostile position would be the surest possible way to blight his concededly bright convention prospects.

IN THE second place Governor Dewey did not need to endorse the Taft-Hartley law to acquire the personal and political enmity of the labor leaders, the radicals and the Communists. He had all that in New York in 1946 when he ran for re-election as Governor. In that year, with almost unprecedented violence, the American Labor party, the Liberal party, the CIO and its PAC, the AFL and all the radical groups fought him from one end of the State to the other as an "enemy of labor" and a "tool of the interests." And, in the election, he figuratively murdered the lot. His nearly 700,000 majority exhibited them as the most significant year. Since then Governor Dewey passed a strike-restricting law in the New York Legislature which caused him to be denounced again as "labor's enemy."

SO, IT is plain that whenever the Republicans nominate, in labor propaganda jargon, is sure "to be labor's enemy"—either because he voted or endorsed the Taft-Hartley Act or because, like Mr. Dewey, he had already earned the animosity of the labor bosses. This is the position into which the latter have gotten as a result of their savage assaults on every public man who refuses to line up with them. Inevitably, now, they are tied up with Mr. Truman, as Mr. Truman is with them. But the Democratic party, whose candidate Mr. Truman will be, on this issue is less than half-heartedly with them or with him. In contrast, the Republican candidate not only will be in sympathy with the law and against repeal, but will have an almost solid party backing. The polls and tests of various kinds as well as the judgment of the most experienced politicians seem to show that the Republicans have the popular edge in this controversy. At any rate, it is a healthy thing, after twelve years of double talk and duplicating platforms, at last to have a clear division between the parties on an issue everybody can understand. The Rt. Hon. Clement Richard Attlee, surely one of the most harassed men of the modern world, pushed downy ahead today with his program of reviving British economies by the "sacrifice route"—and the extent and rapidity of his success was problematical, to say the least.

Attlee deputed his brilliant economics-minded chancellor of the exchequer, Hugh Dalton, to present the hard, cold facts of the situation.

Inevitably, Dalton's report was sombre. He said the loan of almost four billion dollars from the United States probably would be exhausted by this October.

And he warned against any dependence upon future loans, even from the international monetary fund, because of the high rates of interest involved.

All dispatches from London emphasize that Attlee stood most bravely to emulate the stark and delivery of Winston Churchill. His intention was to convince the people of Britain—from top to bottom—employer, employee, dependent and civil servant, that the one hope for survival lies in a wartime unity of action and of purpose.

It was not unexpected that he should have borrowed upon Churchillian turns of phrase and Attlee, despite political differences, is no more lacking in admiration than any other Englishman for the brilliance and oratorical inspiration of his predecessor.

Jurassic Age Pulls Abreast Of Atomic Era

Plaster And Bronze Replicas Of
Ancient Monsters Made Pub-
lic In Pittsburgh.

PITTSBURGH, Aug. 9.—(INS)—After 130 million years, the Jurassic age caught up with the atomic one, although in a synthetic manner.

Four dinosaurs recently produced in Pittsburgh were proof that time never will stand still.

Carnegie museum director O. E. Jennings, who made the announcement, immediately eased the minds of two reporters running to get a shotgun when the admitted that the recent offspring of the reptile monsters were harmless.

Not only that, they're plaster and bronze.

Imitations of the giants who roamed the earth millions of years ago were made for a public demonstration and school popular education program.

Brontosaurus would cover 90 feet if he ever lay down.

Stegosaurus mounted hard spikes down his neck and back, perhaps to discourage pick-ups.

A couple of youngsters in the exhibit are only dated back 65 million years. Presumably they are still growing.

Harold J. Clement, one of the outstanding animal modelers in the world with 25 years experience in museums across the nation, completed the work.

Miniatures of the four old-timers of the animal world will be sold for \$10 a set.

Up She Goes—A Twenty Ton Lift

—New Castle News Photo

A large industrial moving job is pictured above at the yard of Mooney Brothers, Mahoning avenue, where a 20 ton steel bin is being moved with the use of four five ton capacity cranes. The bin, 39 feet high, 15 feet wide and 50 feet long is used to store approximately 400 tons of concrete aggregates, such as sand, gravel and limestone. The bin is being moved from the north end of the yard to the southern end, a distance of approximately 700 feet. A large bulldozer went ahead of the cranes, to clear the yard of any materials or other obstacles in their path. Watching the job are Ralph Mooney, supervisor of the job, William and Paul Mooney.

Discuss Plans For Improvements

Members of the Union Civic and Athletic Association met recently to discuss further plans for improvements for the Union High school stadium.

Installation of the floodlights is under way now, and the job is expected to be finished soon. It is under the direction of the Playtime Equipment Company of Mansfield, Ohio. Plans for the bleachers have been sent to Harrisburg and approved. Construction cannot be started until the Association is assured of necessary materials to complete the job, once started. Full information is expected to be received next week concerning the shipment of steel necessary to begin work.

DUFF FORECASTS SLIGHT CHANGES IN TAX SET-UP

HARRISBURG, Aug. 9.—(INS)—Gov. James M. Duff, back at his desk in the state capitol today following a brief seaside rest, forecast little chance for a revision of state and federal tax structures.

A congressional committee had suggested that the states forego tobacco levies if the federal government abandoned gasoline taxes.

"If there was anything the states could get together on it would be all right but I don't think there is a chance for agreement," Governor Duff asserted.

He disclosed that he went to Margate, N. J., near Atlantic City, for several days rest after watching the Williams kayo Bob Montgomery in a lightweight title bout at Philadelphia Monday night.

The governor left the state capitol last week-end.

Canadian Thanksgiving Day is Oct. 13. However, the date can't make things any tougher for the turkeys.

THEY SAY! BUT WHO SAYS IT?

It seems unfortunate that a campaign for public office cannot be conducted without whispering, innuendoes, half lies, and the usual preface to questionable statements, "They Say".

As a voter you probably have heard some of these whispered innuendoes. When some one whispers in your ear "They Say", ask him who says it? Are they whispering to help some one or hurt some one?

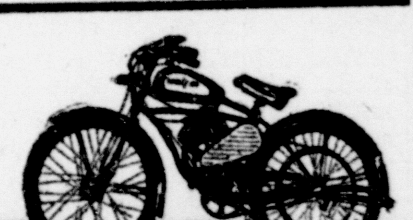

Candidates for public office should stand or fall upon their past records, their ability to handle the job and their willingness to stay on the job.

As a candidate for the Republican nomination for Mayor of New Castle I am perfectly willing to let the voters make their selection upon my past record as a citizen and an official. I am not willing, nor will I permit, the use of vilification, unfounded rumor, or personal attack, in order to get votes.

When the November election is over we will still have to live together as neighbors in New Castle. To be a party to any policy or statements that would set up neighbor against neighbor in a campaign is not worthy of any citizen aspiring to public office.

JOHN F. HAVEN.

IN CASE OF RAIN THE SERVICE WILL BE HELD INDOORS.

Is your garden thirsty?

DON'T WAIT for your vegetables to put in a hurry call for water.

When several days have gone by without rain get out the hose and give your garden a good even soaking. Let the water sink well into the ground.

It will pay off with bigger, healthier vegetables.

board. In arguing against granting a certificate of operation to another airline, Pan-American estimated that only 152,000 pounds of air cargo could be transported on the same route.

"I believe," Marvin said, "that if the airlines which have been granted international certificates by the government devoted as much study, time and effort to cargo as they have done during the past many years to passengers, they would discover for themselves that there is perhaps twice as much business to be had in the international field as they now anticipate."

Airline thinking, it would seem, is in terms of the past rather than the future. It takes boldness and imagination to project fleets of cargo planes across the new sea. That happened, as Marvin pointed out, during the war. In fact, the war could not have been won without the fleets of Army and Navy cargo planes that brought rare materials from the four corners of the earth. This was particularly true of the vital radar and radio program. The Army Air Transport command and the Naval Air Transport service carried millions of pounds of mica, quartz crystals, tantalite, statite and other strategic raw materials from India and Brazil.

Profitable In Peacetime
The customary answer is: Well, of course, that was done on a cost-plus basis at government expense. But the figures that Marvin and others have compiled show that a similar air cargo operation is practicable in peacetime at a profit.

A realistic examination of air cargo rates, both within the country and on the international routes, would probably show that they are too high. They are fixed for scarcity instead of expansion.

We must understand that this counts for more than mere profit and loss. A healthy airplane manufacturing industry is essential to national security. As young Marvin pointed out in his testimony, a fleet of cargo planes for peacetime use could be converted almost overnight to carry wartime cargoes. The same cannot be said for passenger planes.

The young are often brash and foolish. They are given to taking risks that often trip them up, but by taking such risks this country has become great. Monopoly and restriction mean old age and senescence. That should not occur in an industry still in its swaddling clothes.

Free Methodist Camp
Will Close Sunday

Hundreds In Attendance During
Past Week At First Camp
On Croton Sector Site

Despite a few inconveniences which are always present with a new venture, the first camp season of the New Castle district of the Free Methodist church will come to a close on Sunday evening at Marshall field, the camp site of the church at Scott and Vine streets. The camp opened on July 31 after months of preparatory work by Rev. Paul Splitstone, president of the district, assisted by his cohorts, Free Methodist pastors of the area. Unable to complete the permanent tabernacle in time for the first year, services were held in a temporary tabernacle-tent.

To be heard tomorrow will be Dr. Harold C. Mason, preacher and Bible teacher of Chicago, and Rev. R. M. Pine, evangelist of Chicago. The men have been heard daily during the ten-day meet, along with Mrs. James Hudson Taylor, missionary from China, and Miss Mary Taber of Belleville, Mich.

The opening service tomorrow will be at 7 a. m. when a prayer service will be held, followed by breakfast at 7:30 a. m. Other services include Bible school and Y. P. study group at 9 a. m., Bible study at 10:30, dinner at noon, preaching at 2:45 p. m. and the closing evangelistic service at 7:15 with the sermon by Rev. Pine.

COMMUNITY SERVICE
AT NESHANNOCK U. P.

Sunday evening, at 8 o'clock, there will be a community service at the Neshannock U. P. church, when members of the East Brook U. P. church will join in the service as well as those in the district.

A sound picture, "The Calling of Matthew" will be shown, followed by the sermon to be preached by Rev. Norma Marlin, of East Brook and former missionary. There will be no morning service at the Neshannock church.

ceremony known as "Trooping the Color" is performed on the Horse Guards' Parade. The precision and pageantry of this occasion are only equalled by another display of pageantry, the famous Aldershot Military Tattoo.

Unequaled Pageantry
At the opening of Parliament, when these same Socialist members assemble in the House of Commons, the King and it may be in the case of Elizabeth, the Queen—rides in his gilded state coach, preceded by Guards from Buckingham Palace, to the Houses of Parliament. It is an unequalled piece of pageantry and the streets of London are crowded with enthusiastic Englishmen, and the most of them are not the rich Englishmen.

Princess Elizabeth has announced that she is going to have a very simple wedding and that it is not going to take place in Westminster Abbey. I think she will change her mind. Westminster Abbey is the place where every English monarch has been crowned since William the Conqueror in 1066, and where lies buried Kings and Queens and many persons who have distinguished themselves in English history and literature.

There is also St. James Palace, built by Henry VIII, where a new King is proclaimed and foreign ambassadors are still accredited to the "Court of Saint James."

Have Not Recovered
The citizens of England have not yet recovered from the abdication of Edward VIII, now the Duke of Windsor. They had been looking forward to the time when Edward would take for his wife someone of the same caste—a woman whom the English people would be proud to acclaim as their Queen, for they loved Edward, and let no one ever consider for a moment that that love will change to hate. The royal family of England has always been loved by the English people and so, amount to a Socialist bunkum will ever destroy century old traditions. And when another royal heir is born the people will go just as wild as they always have.

Thoughtless Americans are crediting the Princess with being "democratic" in choosing a mere Navy Lieutenant as her mate, but they fail to remember that Philip Mountbatten has royal blood in his veins. Another Mountbatten who has been Viceroy of India, was a great friend of Edward VIII and had been picked by Edward as the proper husband for his sister Mary, the Princess Royal.

It will be remembered that the Socialists have been in the saddle before that J. Ramsay MacDonald was Prime Minister once in 1924 and again in 1929, but England found that his Labor, Socialistic government was not as good as they thought it would be.

Remember—
"Come high, come low, there will always be an England."

THE NEWS

that Attlee is a soft-spoken man indeed.

His speeches do not come faltering. But he lacks the dramatic ability and punch of Churchill, who could utter the word Nazis with such withering scorn that any Britisher with the lightest imagination could envisage Adolf Hitler squirming in his chair at Berchtesgaden.

And when Churchill referred to Mussolini as a jackal and a menial, dropping his throaty voice and punctuating his remarks with a convenient cough that sounded so much like a derisive snort, he made the British people feel they were a privileged few who had been called upon to tighten their belts or give their lives in behalf of freedom.

Whether or not Churchill's oratory might have been sufficient to assuage England's burden is a political enigma.

From the point of view of facts and figures he could hardly have been more complete or precise than Attlee and Dalton have been.

But Churchill always had the magnificent ability to cloak the British people, their cultures and their dogged courage in raiment of rich dogged and brilliant colors, sugaring even the most unpleasant facts with a coating of greatness that in the final analysis did prove to be the core instead of a veneer. This time the British lack such a clarion voice. But they have been told with emphasis what they must do. It is a pretty fair assumption they will do it.

and the younger ones feel inferior? Should I stop this buying for only one—how can I do so? We have tried talking to Grandma about this but she can't or won't understand. I have noticed that she has shown favoritism in other families and caused much trouble and hard feelings. Some time ago I wrote you for your bulletin about Grandparents and had Grandma read it, but she just turned up her nose."

In answering this mother I pointed out that the greatest harm is being done, no doubt, to the boy who is Grandma's favorite. While the immediate harm from favoritism may seem to be to the other children, the greatest harm in the long run is to the favorite child, making him more and more selfish.

If you can find a way to do so, forbid the Grandmother to continue to buy gifts for this child only. She ought to have more sense. If she doesn't come to her senses you might be wise to tell her not to come to your home and let your children go there until she changes her ways—if this is possible.

Survey Of Marriage License
Bureau Shows Many
Marrying Young These
Days

OTHER NEWS OF COURT HOUSE HILL

John Kenneth Majors, of Princeton, charged with a morals offense was fined \$100 and costs or ninety days in the county jail for indecent exposure on Friday morning. The sentence was imposed by Judge John G. Lamoree. On a morals charge Majors was placed upon probation for one year.

FOLKS MARRYING YOUNG

A review of the marriage license applications in the current docket book reveals that folks are marrying at a tender age these days. Out of 236 licenses issued during the past few months, there are 26 boys and 66 girls, who were under 21 years of age, some of them only 16 and 17 years old.

In addition to this number there were quite a few who had just at-

tained their 21st birthday, and many just 22 and 23 years of age. In other words, the girls are catching them young these days, and we might add, we hope they hold on to them, because the divorce courts are getting pretty well cluttered up with marriages which have gone on the rocks.

Judges Braham and Lamoree started hearing testimony Friday in 20 divorce suits instituted recently, decisions upon which will be handed down shortly.

Old Time Students Meet For Reunion

At Mahoning school, teachers and pupils attending the old Mahoning-town school, prior to 1914, met for their 18th reunion on Wednesday afternoon at 1 o'clock, with Robert Sheehy presiding.

Ruby Clark Arble, former teacher, opened the "school session" with the 23rd Psalm in unison, and closing with Lord's Prayer.

Reports were given by Secretary W. W. McGaughey of Akron, O., and Raymond Horchler, treasurer. There were about 150 present. Officers were re-elected for 1948—Robert Sheehy, president; William Weitz, Sr., vice-president; W. W. McGaughey, secretary; Raymond Horchler, treasurer; Ella McGraw Magill, chairman of arrangements for 1948, with her committee, Mildred Welsh Louer, John W. Louer, Anna Conn Bollinger, Bessie Coates Pitzer, Frank Barnes, Jim Bailey, Registration was in charge of Bessie Coates Pitzer and Frank Barnes.

Secretary read communications from Mary Eichbaum Simpson, No. 1 teacher, Bristol, Tenn.; Prof. W. A. Moore, Boulder, Colo.; Clara Sample Neal, Grass Valley, Calif.; formerly of Koppel; James W. Coates, Constantine, Mich. Two former pupils died since last reunion, May Churchfield Bronstetter of Pittsburgh and Mary Sample Mornes of Columbiana, O. Teachers attending were Mrs. Elizabeth Bratchle, known in school days as Lizzie Richey; Ella Patterson Meacham, Ellwood City; Clara Pitzer Coates and Ruby Clark Arble.

Oliver Wink, one of the reunion founders, Akron, O., was reported to be improving after a serious illness. Mazie Hammond Griffin of Sharon reported that her home was hard hit during the recent tornado there.

All adjourned to Cascade park, where a bounteous supper was served in the grove, with W. W. McGaughey giving the invocation.

Dinner was in charge of Ella McGraw Magill and her committee which was re-elected for 1948, assisted by Mrs. William Weitz, Sr., Mrs. Robert Sheehy, Mollie Bollard Griffith of Mercer and Clarence Coates. John W. Louer served splendid coffee.

More Duffle Bags Sent Overseas

Bags Being Filled With Used
Clothing To Be Sent Overseas
To Distressed Peoples

Willing Workers class of the King's Chapel Methodist Sunday school was the last to call in request to County Sunday school headquarters for duffle bag. Their order has been placed and when the dufflebag is filled with clothing and shoes, it will be forwarded to service center in Maryland where contents will be cleaned and renovated before being sent to the needy overseas.

Ten duffle bags have also been ordered to be sent to Frank Wiley, president of Ellwood district, for use in Ellwood City and vicinity Sunday schools.

Three filled duffle bags were taken to the post office this morning for shipment from the Men's Bible class of the First Baptist church. One of the filled duffle bags weighed 28½ pounds and the shipping charges were 67 cents, the second weighed 31 pounds and the shipping charges were 71 cents and the third weighed 37 pounds and the shipping charges were 85 cents.

The value of these duffle bags filled with clothing and shoes for the destitute of other lands can be realized, when we think of their cost in countries overseas. A letter furnished by the service center states that children's shoes cost \$20.00, men's work shoes \$40.00, suits \$200.00 and work shirts \$9.00.

To Sample Bison
Who Terrorized
Town In Michigan

COLDWATER, Mich., Aug. 9.—(INS)—Hungry citizens reached for their broilers today and prepared to sample some buffalo steak—all that is left of the 13 shaggy bison who terrorized the Coldwater, Mich., townspeople yesterday with a main street stampede.

The buffaloes were shot in a cornfield southeast of town yesterday after they escaped from a herd owned by Edwin B. Butters, a local farmer, and spent the day disrupting traffic, window-shopping on Chicago street, the city's business center, and chewing up lawns.

Police Chief Harry B. Hutchins, Sheriff William Burns, 14 policemen and deputies and 20 volunteers shot the bison after they were cleared out of the city. Most of the meat will be sold to restaurants in the east and Chicago.

County DeMarigny Charges Libelous Account By Time

MONTREAL, Que., Aug. 9.—(INS)—Quont Alfred DeMarigny, husband of Countess DeMarigny and son-in-law of the late Sir Harry Oakes, who was murdered in Nassau, Bahamas, has started action in superior court for \$75,000 damages from Time magazine for alleged libel and defamation.

The suit arises out of proceedings recently taken by the Canadian immigration authorities to deport De Marigny to his native country, the island of Mauritius.

DeMarigny is at present at liberty on a \$1,000 bond pending judgment on his appeal from a judgment of the superior court which held that he is liable to deportation in accordance with the orders of the department of immigration. His appeal will be heard in September.

Little Joey Macri, 2 West Home street, no doubt made his parents very happy on Thursday, when he "hit" the jackpot!

What jackpot, you ask? The bubble gum jackpot. In fact, the whole contents of a chewing gum machine—and all for one cent.

Little Joey will probably have a lot of fun in blowing the bubble gum, the bigger the bubble the better. That is, until his parents tell him to stop.

DAYTON DIVORCEE HELD FOR FLIGHT WITH BOY AGE 16

DETROIT, Aug. 9.—(INS)—Mrs. Dolly Cox, a 34-year-old divorcee, was charged Friday by Detroit authorities with contributing to the delinquency of a minor in eloping with a 16-year-old Dayton, O., youth.

Mrs. Cox and the youth, Louis Kotronis, were arrested when they came to Detroit by bus from Dayton where she was a waitress in a restaurant owned by Arthur Polezo.

Louis' uncle, Polezo obtained a kidnapping charge against Mrs. Cox which was dropped when the youth said he willingly made the trip and intended to marry Mrs. Cox.

The waitress, whose home is Greenville, Tenn., said the boy is "my man and I love him."

Aussie Girl Is Loyal To Veteran Despite Triangle

CHICAGO, Aug. 9.—(INS)—The love that brought Mrs. Ivy Margaret Kiselewski from Australia to Chicago to marry ex-GI Chester Kiselewski today still held her loyal to him despite the presence of "another woman" in his life.

The 27-year-old Australian war bride told Chicago Municipal Court Judge John Zuris yesterday that she still loves her husband even though he spends most of his time with a 45-year-old divorcee. She added:

"I'm sure he still loves me. It's just when he's been associating with the other woman that he treats me badly."

Kiselewski was arrested on the complaint of his stepmother, Mrs. Helen Kiselewski, that he was neglecting his wife.

The judge fined Chester \$200 and ordered him to give it to his wife instead of the court. Kiselewski wrote out a check, gave it to his wife, and left the courtroom with her.

Bell And Brothers Win Their Battles

Bell's Aggressiveness And Heavier Punching, Defeats Fittipaldo; Brothers Scores TKO In Second Round; Micatrotte Suffers Concussion And Goes To Hospital; La Grow And Elisco Lose Decisions.

Last Night's Results
 Bob O'Callahan, Cleveland vs. Bob Tamboro, Cleveland, paperweights, exhibition.
 Don Schultz, Cleveland, defeated Lionel LaGrow, Cleveland, 142.
 Curley Maiden, Cleveland, defeated Cliff Burke, Cleveland, 135.
 Fred Stettman, Cleveland, defeated Guy Elisco, New Castle, heavyweights.
 Elkins Brothers, New Castle, scored a TKO over Al Micatrotte, Cleveland, second round.
 Bobby Bell, world's bantamweight champion, Youngstown, defeated Ted Fittipaldo, junior featherweight champion, Warren, 126.
 Armando DeMarco, Cleveland, defeated Tommy Salem, Cleveland, 118.
 William Bell, Cleveland, defeated Bill Bradley, New Castle, 160.
 Lallo Sabotin, Warren, defeated Homer Napier, Cleveland, 165.

Bobby Bell was given the unanimous decision over Ted Fittipaldo, Elkins Brothers stopped Al Micatrotte in the second round. Al later being entered in the New Castle hospital for a head concussion and Fred Stettman decided Guy Elisco in three of the eight bouts promoted last night by the Johnson Bronze Employees Association at Flaherty Field. Fifteen hundred fans witnessed the fights.

Bell, world's bantamweight champion and Fittipaldo, junior featherweight king, put up a masterful bout. In fact, were they pros, no better exhibition could have been witnessed. Bell fought aggressively, delivered the hardest punches and despite the fact that Fittipaldo made him miss often, the judges and referee gave Bell the decision.

Brothers won after Al Micatrotte as soon as the bout opened, but his right left short for a time, but he finally found the range for Al's stomach. Micatrotte put his left to the stomach and head. Brothers sunk a left to the stomach and Al fought to the body. Brothers put a right to the head and Micatrotte landed his left to the head, twice.

Head Strikes Canvas
 Honors were practically even in the first round, but when the second opened, Micatrotte moved away from Brothers' right and hooked his left to the head, after which Brothers sent a right that knocked down Al who took a count of nine, and got up. A right, which travelled only six inches, tumbled Micatrotte a second time. His head struck the canvas. His second stepped into the ring.

When his seconds failed to revive him quickly, Dr. H. C. Harper, state athletic commission physician, revived Micatrotte and worked over him in the dressing-room. Dr. Harper said Micatrotte had a concussion and Ed Fritz had Micatrotte sent to the hospital in an ambulance, where he reportedly is getting along all right.

DISCHARGED FROM HOSPITAL

Al Micatrotte, heavyweight boxer of Cleveland, who sustained a slight concussion when his head hit the canvas during his bout with Elkins Brothers, New Castle boxer, today was released from the New Castle hospital and with his trainer, Michael Carriere, returned to his Cleveland home.

Guy Elisco and Fred Stettman fought a grueling three rounds. Fred, a cagey colored fighter, from Cleveland, proved too smart and clever for the plodding Elisco, but Guy put up a good fight, which was well liked. The decision, however, went to Stettman, who substituted for Sal Brunello who received a gash in his elbow, and was unable to appear.

Lionel LaGrow, Cleveland, was outpointed by Don Schultz, Cleveland, at 142, who took Chuck Gibbons place on the card. It was a good fight. Judge Charlie Chirozzi voted for LaGrow and Judge Bob Fraser voted for Schultz with Referee Ray Leyschock giving his vote to Schultz which made him the winner.

Sabotin Beats Napier
 A match between Cliff Burke, Cleveland, and Curley Maiden, Cleveland, was made in the dressing-room. Maiden was too clever for Burke, and it was not a good fight.

Slate County Loop Play-Offs

Eliminations Start Aug. 17—Five Teams Involved; Season To End August 15

The regular County League schedule will conclude Friday, Aug. 15, and the first round for determining the champion by elimination series will get under way Sunday, Aug. 17.

This was decided last night at a meeting of the loop managers and officials in the Sporting Goods store, N. Mercer street.

This decision will cancel the remaining games which are on the play-off schedule except three which were arranged to be written off next week during the final round of play.

Five Teams To Play
 Due to the slight difference in the records of the first division teams it was decided to make the Shagbush play-offs involve five teams.

In short this means that the teams finishing one through five as of Aug. 15 will be included in a chance at the loop title. The team finishing in first place on that date will draw a first round bye and will enter into the play-offs during the second round. Second place club will play a three-game series with the fourth place outfit, and the third place team will engage the fifth club. Teams finishing highest in the race will automatically be the home teams.

Survivors In The Eliminations
 will then meet in a five-game series for the league championship. In case of rain games will be played the night immediately following the scheduled dates. All play-offs will follow the regular league playing days—Sunday, Wednesday and Friday.

It was agreed to start twilight games at 5 p. m. EST in order to play nine-inning contests. Sunday games will still get underway at 3 p. m. either EST or DST.

Five per cent of the gate in the final five-game series will be turned into the league fund, it was announced—this money to be held by the loop treasurer for further operation of the league.

Remaining schedule for the season will be found in the league standings for today.

Elks Roundup Slated Sunday

Elks Expect Over 200 Golfers From Six Lodges In Nearby Towns To Play Here

New Castle Elks lodge 69 is playing host Sunday at the Sylvan Heights course to an expected 200 Elks from six lodges in nearby towns. It was announced today by Chairman William Sands.

Activities will get under way at 10 o'clock EST, and a grand day for the Elks golfers is planned. Lodges sending golfers here are Alliquippa, Rochester, Beaver Falls, Ellwood City, Sharon and Greenville.

There are a galaxy of fine prizes for the golfers in various events. Lunch and refreshments will be served the men as they come in off the course.

All that remains for the Elks to have a good time Sunday is the weatherman's "say-so" that the day will be right for golfing. There is no indication that rain will mar play.

Eddie Stewart Slated For Mound Duty Against Indies, Six Other Good Games Listed

In spite of the refusal of the Lawrence County Umpires Association to furnish any umpires to the City Baseball league, the loop will go ahead with its full Sunday schedule, it was announced by President Charles "Bugs" Walther today. All games Sunday start at 3 p. m.

All teams in the league will choose their own umpires prior to game-time. The Indies and Tigers inaugurated the "pick-your own ump" idea last night at Lee Avenue and got along all right.

Universals vs. Indies
 The feature attraction on the City League card for Sunday will find the Universal Pottery opposing the Lawrence Indies at Cedar Street Field. The Indies last night snapped a losing streak, they hope, by defeating Eddie Stewart and his Pottery mates tomorrow.

Manager George "Hoss" Zidow was undecided on his pitching selection for Sunday but it will probably be young Billy Andrews or the veteran Johnny Russu. The Pottery will have Houston, Janacich and Kupiec in reserve if Stewart gets into any trouble. A good game is anticipated by the large crowd of fans who will see the contest.

Six Other Contests
 In other Sunday league contests the Slovaks will play the Dukes at Cascade Street Field, the Tigers will be down at West Pittsburg, the Columbus Club goes to Scotland Lane for a meeting with the Union Civics, the South Hill team plays at Washington field with the Dewey A.C. the Reynold team is slated for a game at Booker T. Washington with the Colored Spartans and the Sons of Italy will be in Mahoningtown for a battle with the St. Margarets at the P. & L. Field.

The league season is ending Tuesday on its schedule of games, and the managers will have an important meeting at the "Y" Monday evening at 8 o'clock for the purpose of discussing the coming playoffs.

"Bud" Russler To Throw Strong Array At Champs

All-Stars Have Power, Pitching—Hope To Sidetrack State NBC Kingpins; Contest Will Get Underway At 8 P. M.; Fair Weather To Bring Large Crowd.

Stars of the City and two County Leagues aren't going Communist tonight under the arcs at Flaherty Field.

If you are still a little confused, it all boils down to an ambush party planned by the top talent of three loops who hope to knock off the Johnson Bronze club—state NBC champs. Another record crowd is expected to be on hand at 8 p. m. to see if the hand-picked squad (by "Bud" Russler of the J. B. firm) can pull off their stunt.

Bulge With Talent
 "Russler's Rifles" pack the punch and the pitching to make it very interesting for the Mike Duffey crew. With a few exceptions (and it is no clutch align everyone of consequence in the three loops when many have jobs that demand their presence), the squad is sprinkled with the names of players who have been prominent in diamond action this summer.

At this writing no definite lineup has been chosen to take the field against the Jay-Bees but the nod can be given freely without weakening the array too much at any point.

Stars To Be Seen
 Herewith is a list of some of the aces who will cavort tonight under the lams lamps: Bill Peto of Bessemer, Nick Palagallo of Wampum, Dick Friedhoff, manager of the Ellwood Moose; Dale Brown, Wampum second baseman; "Mickey" Kearns of the West Side Tigers, Amil Markey of West Pittsburg, Apollo of the Dukes, Paul Johnson, Bessemer's "Strong Boy" outfielder, Eddie Stewart, Universal hurler, Frank Powell of Wampum; Don Rinker of the Dewey A.C., Burkley, Spartans, "Monk" Rainey of Columbus club, Evanowski, Universals, Ratvasky, Nashua, Stollita of West Pittsburg, Ivan Young, Volant, Tony Compello, Columbus Club, "Babs" Orlando, Columbus, Ernie Adams of the same outfit, Jake Sagenich of Nashua, Andy Samansky of West Pittsburg.

St. Louis Cards Defeat Pirates

By LES KONKIN
(International News Service Sports Writer)

NEW YORK, Aug. 9.—The Brooklyn Dodgers are playing today for a cold wave, which apparently is the only thing that will stop the stretch rush of the St. Louis Cardinals.

In St. Louis last night, the champions stretched their winning streak to eight games when George Mauer held the Pittsburgh Pirates to three hits and blanked them 6 to 0 for his fifth shutout and ninth win of the season.

Dodgers Top Phils
Not a Pirate got beyond first base, while the Red Birds beat the veteran Fritz Ostermuller for the first time this season.

Ralph Branca, Brooklyn mound ace, blanked the Phillies 5 to 0 for his 17th victory and fifth shutout. The Dodgers, who had lost six of their last seven games, maintained their four-game lead over the Cards and jumped six games ahead of the third-place New York Giants, who were nosed out in the tenth by the Boston Braves, 7 to 5.

Blackwell Beaten
Swish Nicholson hit an 11th-inning homer and the Cubs pulled a triple play to defeat Ewell Blackwell of Cincinnati, 2 to 1. It was the third consecutive defeat for the "Eel," following his 16-game winning streak.

In the American league, the Boston Red Sox took over second place by defeating the pace-setting New York Yankees, 9 to 6.

Detroit's Tigers dropped to third place when they were nosed out by the Chicago White Sox, 4 to 2, on Rudy York's 10th-inning homer.

Baseball attendance in Cleveland soared beyond the million mark for the second time in the city's history as Al Gettel of the Indians pitched and batted his way to a 4 to 1 win over the Browns.

The Senators and Athletics were rained out.

It Isn't the Heat, It's the Stupidity

Pardon us for the quotation but it's another of our old friend Horatius Q. McGiverly, (of the Spring Hill McGiverly's). Says Mr. McG. the other afternoon as he wiped his rugged brow with a red bandana, "it's no wonder some of these cars come to grief. Driving a car at 85 in this heat is enough to give you cold chills on a hot day. No wonder the engines fail."

"Then of course there's a job for an expert mechanic. And I must say" (said Mr. McG.) as he started out, "they come to the right place when they bring their jobs here."

Mr. McG. is right of course. Your trouble is our pleasure.

Church Golfers Battling Today

New Castle church golfers are battling for the 1947 championship at the Castle Hills course this afternoon. The match, an 18-hole affair, got under way shortly after 2 o'clock with St. Mary's, the 1946 champions, opposed by the St. Paul's Lutheran golfers. Captain Fred Palmer of the St. Mary's team and Captain Al Figuly of the Paul's team are both highly confident of victory.

The match is being played under full handicap, it's a battle of stars.

Senator Martin May Be Factor

Reported As Favored For
Presidential Nomination
By Col. Robt. Mc-
Cormick

OTHER NEWS OF STATE AFFAIRS

HARRISBURG, Aug. 9.—(INS)—The stop-Dewey campaign has picked up some headway, according to reports reaching Pennsylvania Republicans via Chicago. It has been reported that Col. Robert McCormick, publisher of the Chicago Tribune, is dead set against handing the GOP nomination to Gov. Thomas E. Dewey of New York. McCormick's stand reportedly stemmed from Dewey's association with John Foster Dulles, the governor's adviser on foreign affairs and an internationalist. McCormick, isolationist GOP whipcracker in the midwest, has looked over the crop of possibilities and decided the healthiest political specimen around to sidetrack Dewey was U. S. Sen. Edward Martin of Pennsylvania.

According to GOP sources, McCormick's selection of Martin apparently was made with full knowledge that the veteran GOP wheelhorse had little chance of running off with the nomination next June. But rather than that he would be the hammer used to knock Dewey's chances out of kilter. It was not known whether Martin had any part in the McCormick maneuver but on the surface it would appear doubtful unless Pennsylvania's former governor became a firm isolationist and abandoned his plea for universal military training in the interest of votes.

The Pennsylvania Federation of Labor (A.F.L.) has intensified organization of local Political Action Committees which formed its reply to enactment of labor-curing legislation by the Republican dominated 1947 General Assembly. Some activity will be undertaken in the 1947 municipal election campaigns,

according to President James L. McDevitt, but chief attention will be focused on the special September 9 balloting to fill three vacancies in the State House of Representatives and a seat in Congress. A P.C.A. in Allentown was hard at work to defeat state speaker of the House Franklin H. Lichtenwalter, Central Valley, in his campaign to fill the vacancy in the Eighth Congressional District of Bucks and Lehigh counties caused by the death of Cong. Charles L. Gerlach, of Allentown. Lichtenwalter is opposed by Philip Storch, Allentown newspaperman and Democrat.

Vacant seats in the state's lower chamber existed following the deaths of Robert W. Munley, Democrat, Fifth Lackawanna District, and Republicans Peter J. Campbell, Fifth District and Harry Schlecht, 27th District, both of Philadelphia. The Philadelphia campaign will be a "tough battle," McDevitt said, since "those seats are Republican organization seats." No Political Action Committee has been established in the Quaker City yet, McDevitt said, but the nuclei of PAC's have mushroomed in Reading, York, Easton, the Beaver Valley, Scranton, and Wilkes-Barre. Permanent organizations have been quartered at Pittsburgh and Harrisburg, he added.

Churches To Unite In Religious Week

CHICAGO, Aug. 9.—Protestant churches of United States and Canada will unite next month in observance of Religious Education Week to proclaim to the world that the Christian religion offers mankind its only hope for the future, according to Dr. Roy G. Ross, general secretary of the International Council of Religious Education, sponsor of the observance.

Using the theme "Faith Is the Victory," the churches of 40 major Protestant denominations and of 634 interchurch councils will celebrate this week for the seventeenth time, Sept. 28-Oct. 5. Nationally known political, civic, educational, and athletic leaders are giving their support. "Religious Education Week gives the Protestant churches of the United States and Canada real opportunity to focus the attention of their communities on the only hope that the world has today—the church and its Lord Jesus Christ," Dr. Ross said here today.

Fourth of a Series

J. AUDLEY BOAK

A native son of Lawrence county, whose heritage of the soil dates back six generations, is J. Audley Boak, master farmer of Slippery Rock township.

Indeed, Mr. Boak's roots are as deep as the century-old trees which surround his Orchard Slope farm, built by his great-grandfather in 1829 and passed down to succeeding sons. He was born in the old homestead in 1873, which stands today as one of the most modern farms in the county, 330 acres of land which is worked to produce a variety of products.

Has Varied Pursuits Although he undertakes general farming, Mr. Boak has leaned towards the specialties of dairying and fruit-raising. His dairy herd consists of 35 head of Jersey cattle. Other livestock includes 100 white Chester hogs, sheep and chickens. His orchards are rated with the best in this locality. He married Tilly Kelly, a Crawford county school-teacher, in 1900 and began his agriculture career on his father's acres. In 1908 he purchased the farm and today operates it in partnership with his son Everett. Having given up horses some time ago as a source of motive power, Mr. Boak today owns the latest machinery to make his year-around tasks easier. His shrewd management and knack of "keeping in tune with the times" has made his farm into a well-kept and productive site. This successful resident was not always a farmer. After attending Rose Point Academy he taught school in Slippery Rock township for six years. In 1910 he organized the grange movement in Lawrence county, an activity for which he was later to become well-known throughout the state. He served as master of the Pomona Grange from 1916 to 1922, and was named state grange master in 1932, serving until 1938, ascending to a post from overseas. He is still active in this work at the Willard Grange. Mr. Boak is also an elder in the Mt. Hermon Presbyterian church, is a trustee of Penn State College and is one of the advisory committee of the Salvation Army. He organized the agricultural extension service in the county in 1916. He is the father of two sons, Everett, who resides with him, and Francis, who lives on his own farm in Scott township. He also has two daughters Mrs. F. M. McEwen of Ray street, New Castle, and Mrs. D. E. Chamberlain of Montrose, Pa. There are eight grandchildren in the family.

Body Of Woman Found In Weeds Of Detroit Lot

DETROIT, Aug. 9.—(INS)—The body of a 45-year-old woman, tentatively identified as Mrs. Alta V. Sauber of Flint, was found in a clump of weeds of Detroit's east side Friday.

Police said they discovered the body while investigating a parked car at Morang and Kelly roads, near Denby high school.

The woman was chloroformed. The victim was tentatively identified through the license plate on the car and ration books and other papers found in the woman's luggage.

The woman's husband, Dr. G. J. Sauber, told police his wife left home three days ago.

According to acting Chief of Detectives John C. Whitman, Dr. Sauber admitted that there had been a quarrel. He said their divorce was pending.

Nurses To Press For Wage Boost

HARRISBURG, Aug. 9.—(INS)—The Pennsylvania State Nurses Association today planned to push its battle to establish "standard wages" for nurses during a three-day annual convention slated to open October 20 at Philadelphia.

Officials said the conference would be devoted largely to outlining methods of "cultivating better bargaining relations with employers." The organization reported hitting a few snags in attempting to interest hospitals in the plan which will go into effect October 1, 1947. It emphasized, however, that the nurses' "no-strike pledge will never be broken."

The purpose of the so-called economic security program was to obtain better working conditions and pay for nurses without resorting to unionization. The PSNA was delegated by members to serve as bargaining agent for 15,000 registered nurses when the uniform salary program was outlined during a meeting last October at Harrisburg.

HOLLYWOOD, Aug. 9.—Hollywood's hardest working man, Bob Hope, is going to take life much easier from here on in.

Bob's just returned to work in "The Paleface" for Paramount after his first real vacation in six years. He took four months off.

Bob set such a pace for himself during the war entertaining servicemen, besides his movie and radio work, that he wasn't able to bring it to a halt until almost two years after hostilities ended.

Will Take Rest But, no more! That comes from Bob himself. He said: "After I finish this picture I'm

Margaret To Debut In Pittsburgh Oct. 17

PITTSBURGH, Aug. 9.—(INS)—Other reports notwithstanding, Margaret Truman, daughter of the President, intends to make her national concert debut in Pittsburgh.

Thomas Beagle, of the Beagle concert organization, said today he talked to Miss Truman by telephone and that she said her appearance in Hollywood Bowl in the movie capital is not a concert appearance—merely an appearance with an orchestra.

Miss Truman was scheduled to make her concert debut in Pitt Stadium May 20, but at the last minute had to decline when she learned of the critical illness of her grandmother, Mrs. Martha Truman, after she arrived in Pittsburgh. Beagle said a tentative date of Oct. 17 was set for her debut.

SCHOOLBOY STUFF

PHILADELPHIA, Aug. 9.—(INS)—Sidney Troy, 19, of New York City, was let off with a rebuke Wednesday after admitting that he painted anti-British slogans on the PSS Building in Philadelphia last Friday night. Troy agreed to pay the \$41 it cost the management to remove the paint.

Wilbur and Orville Wright's first business venture was a bicycle repair shop, which led to their experiments in airplane building.
